

Stay hydrated, stay safe

Hands-free press and pour

The solution that keeps you safely hydrated

We realise more than ever that protecting your people is paramount. That's why we've produced a hands-free solution to help you achieve heightened safety from infection in the workplace.

Simply fit to your existing Waterlogic dispenser to provide hands-free access to the same clean, great-tasting water you've always enjoyed.

There is no need to touch buttons or dials, meaning less opportunity for germs to spread between users.

Hands-free dispensing, combined with social distancing measures and the powerful combination of Firewall® UVC purification and BioCote® antimicrobial protection ensures you and your workforce are as safely hydrated as possible.

- Simple retro fit by our qualified technicians means no need to replace your current dispenser
- Intuitive no-hands functionality
- Easy to use, press and hold foot pedal to dispense water
- No-hassle set up, one upfront cost

Better water, better thinking,
better for you, better for the planet

Simple to use

A pedal for each water type (cold, sparkling, ambient, hot and extra hot). Suitable for most Waterlogic mains-fed freestanding dispensers.

Providing unrivalled water purity and hygiene for your workforce when you need it most. Simply pay a one-off fee to enjoy hands-free access to fresh, clean water.

Peace of mind

The hands-free solution is part of a range of consumables and accessories that provides all the tools you need to help you achieve hygiene in the workplace. Contact us to find out more.
