

# WL7 Firewall<sup>®</sup>

Stylish design, high-tech features and a plentiful source of ice-cold purified water

## Unrivalled performance from the world-class point-of-use (POU) water system

This advanced POU water purification system combines refined engineering and high-tech features in a robust and reliable machine. The WL7 Firewall (WL7 FW) can dispense up to five varieties of water, including a large volume of refreshing, ice-cold sparkling water. Ideal to satisfy all the hydration needs of even the busiest workplaces.

## Leading technology

The WL7 FW features four core technologies:

### High performance filtration

Waterlogic filters offer the best-in-class filtration, guaranteeing premium purity with every drop.

### Firewall

Waterlogic's patented and certified Firewall technology features a highly effective UVC antimicrobial purification system that acts at the point of dispense. Firewall guarantees 99.9999% purified water. Glass after glass.

### BioCote<sup>®</sup> protection

The WL7 FW key surfaces are infused with BioCote<sup>®</sup>, a silver ion additive able to inhibit microbial growth on the surface of the products helping to reduce unpleasant odours, degradation of key surfaces and the potential for cross-contamination.

### Ice Bath cooling technology

The new Ice Bath water cooling system delivers high volumes of ice-cold water, offering the most consistently cold water of the Waterlogic range.

## Industry leading user experience

Designed to offer 'best-in-class' user experience, the WL7 FW features a large dispense area, alongside a user friendly screen interface and water selection dial, allowing users to easily choose between five types of water.

**R600a gas**

environmental  
impact**

## Features

NSF 55 Class A and NSF P231 certified Firewall, patented UVC technology, that reduces the risks of viruses and pathogenic bacteria, purifying the water up to 99.9999%
New Ice Bath cooling technology for abundance of highly purified ice-cold water
Sparkling system, engineered to deliver supreme quality of ice-cold effervescent water, comparable to even the finest bottled water
User interface with 5" full colour LED display featuring machine status bar and water dispensing options
The ergonomic dispense area can accommodate tall water vessels and sports bottles
Maximum service efficiency, achieved via the self diagnostic system and QR code for instant access to the service manual via smart device
Versatile base cabinet converts the unit from countertop to freestanding, and offers filter and CO <sub>2</sub> storage space
Filter and UV fault indicators, as well as other system diagnostics for peace of mind
Leak prevention system provides extra protection and reduces the risk of accidents
Programmable energy saving sleep mode to significantly reduce power consumption when the unit is not in use

## Water options

cold	sparkling	ambient	hot	extra hot
				

## Number of users

 up to 50

## Tested and certified

Waterlogic International Limited and WLI Trading Limited reserve the right, in order to reflect continuous research and development, to amend or change specifications without prior notice. Waterlogic and the Waterlogic logo, Firewall and the Firewall logo are trademarks in countries where the Group operates. WLI Trading Ltd licensed to use BioCote, and BioCote logo which are registered trademarks of BioCote Ltd.

## Technical specifications

### Types available

Freestanding and benchtop

### Dimensions

399 mm (W) x 1269 mm (H) x 519 mm (D) (Freestanding)  
381 mm (W) x 427 mm (H) x 519 mm (D) (Benchtop)

### Dispensing area height

273 mm

### Weight

47 Kg freestanding  
30 Kg benchtop

### Filtration options\*

Carbon

\*dependent on local water conditions

### Storage capacity

Cold and sparkling: 3.8 litres  
Hot: 1.5 litre

### Dispensing capacity (Cold and sparkling)

Sparkling: Up to 14 L/h below 8°C

Cold: Up to 15 L/h below 8°C

### Water temperature output

Cold: 5°C

Hot: 75-93°C F

Extra hot: 80-95°C
